

MILLCON THIHA GEL
LIMITED

MILLCON THIHA GEL LIMITED

Group of Millcon Steel Public Company Limited (MILLCON) is one of Thailand's leading manufacturers and distributors of steel products and fully integrated steel service center. Our products are in variety to serve diversified needs of customers, such as hot rolled coils, slitting coils, steel sheets, flat plates, lip-channel steel, steel pipes, etc. We also have rolled steel, round bars, deformed bars, square bars and high tensile thread steel bars called "One Bar", the latest innovation developed to remove steel joining problem and can reduce the cost of construction, and many other steel products which have earned both domestic and international standard certification.

Millcon Thiha GEL Limited. (MTG) was established at Thilawa Special Economic Zone Estate in 2014 with investment about USD 15 million comprising land lease and construction. MTG is under joint venture model among Millcon Steel PLC (Thai leading steel manufacturer in Thailand), General Engineering PLC (Thai cement construction company) and Thiha Group (Myanmar trading company) to produce Steel Pipe, Construction and Prefabricated product.

With our expertise in Steel production in Thailand over 18 years and European machinery technology, the annual capacity would be about 64,400 ton of Steel pipe at maximum and 6,000 tons of Prefabricated Steel at minimum.

MTG would drive our mission to deliver high quality and most desired steel products and services to valuable customers among Myanmar and neighboring countries. Consequently, the factory has to acquire up-to-date knowledge and technology dynamically to response rapid regional market demand and requirement in near future.

MISSION

To drive evolution in the value chain and deliver the best solution to the construction and production industries.

VISION

We will create SYNERGY from people, technology, and expertise of our partners to deliver solution BEYOND STEEL to the ASEAN region.

Our corporation will elevate the construction and production industries by delivering unparalleled values through the VALUE CHAIN.

The key to our success is our LEVERAGE OF INNOVATION in products, services, processes, and business model to unlock full value potentials for customers, shareholders and business partners

CERTIFICATE

STEEL PIPE

our factory produces and distributes steel pipe for example round pipe, square pipe, and rectangular pipe for use as raw material in various industries such as construction, furniture, and automotive part. It can also be applied to supply other type of industry depending on customer requirement.
